expected graduation 2024

Bachelor of Science in Computer Science

GPA: 3.17

## Technical Skills

**Certifications & Licenses:** CA Class B CDL w/ passenger endorsement

**Programming Languages:** Python, C++, HTML/CSS

**Software/Tools:** Adobe Creative Cloud, Figma, Final Cut Pro, Git, iMovie, iWork, Microsoft 365, Wix

## Professional Experience

### **Anteater Express**

**May 2021 - present**

Bus Operator

September 2021 - present

- Knows the safe operations of 40-foot battery-electric transit buses, including vehicle inspections and proper driving techniques.
- Responsible for getting UCI affiliates to wherever they need to be in a safe manner, with the utmost of service, and on schedule.
- Works a minimum of 2-hour shifts independently while also communicating with dispatch when necessary.

## Activities/Projects

### **Circle K International**

**September 2020 - present**

Videographer | UCI Circle K

March 2021 - present

- Creates video content for UCI Circle K covering the tenants of service, leadership, and fellowship while working with two other media chairs when necessary.
- Works with a board of over 20 members to help run UCI Circle K, the biggest Circle K chapter in the world, through weekly board meetings and frequent communication.

Technology Internship Program Member | UCI Circle K

October 2020 - present

- Assists with tasks including re-designing the ucicki.com website to fit the club's current theme, updating the layout of various pages, and optimizing the website for mobile devices.
- Effectively communicates with other members to ensure that one part of the website is only worked on by one person at a time.

### **Orpheus**

**January 2020**

Front-end Developer

- Developed as part of HackUCI 2021, this web application generates a workout-themed Spotify playlist based on a user's desired beats per minute and "pumped".
- Effectively communicated with three other team members via Discord.
- Used Figma to design a website mockup and helped create a website in HTML/CSS and the Bootstrap CSS framework, using WebStorm and Git.
